

Your GP Practice is a Team

The right care, from the right person
You may not always need to see a GP first.

Your GP practice is made up of a team of healthcare professionals - not just GPs.

Depending on your health needs, you may be offered an appointment with a specialist who can often help more quickly.

Who you might see:

- Physiotherapist – muscle or joint pain
- Pharmacist – medication advice and reviews
- Mental health practitioner – wellbeing support
- Diabetes nurse – support managing diabetes and other trained healthcare professionals

If your healthcare professional still thinks you need to see a GP, they will arrange this for you.
